

Mission: To rapidly reverse engineer and qualify parts for multi-platform and multi-commodity part production.

COMPANY OVERVIEW

BC Engineered Products (BCEP) is headquartered in Morristown, NJ, with its manufacturing and engineering divisions in Brooksville, FL. Our robust new product development, reverse engineering, and product improvement capabilities combined with our manufacturing facility and expansive supply chain empower us to supply the finished product and bring product solutions to market.

BCEP has an extensive track record of breaking out sole-source/limited-source parts resulting in millions of dollars of cost savings and improved supply chain readiness and mission capability. In addition to new product and sustainment projects, our agile teams of professionals resolve DMSMS, product obsolescence, and DoD MICAP scenarios.

KEY CAPABILITIES

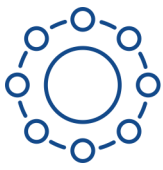

- Parts Manufacturing and Supply
- SAR Package Development
- Technical Data Package Development
- DMSMS/Obsolescence Management
- Reverse Engineering
- Engineering
- First Article Inspections
- Inspection and Testing
- Product Design and Design Improvement
- New Product Development

CONTRACTING VEHICLES

- SBIR
- GSA 47QRAA23D001A
- Direct Contracting/
Purchase Orders
- DLA/DIBBS
- NECO
- OTA
- Teaming Agreements

PRIMARY INDUSTRY NAICS CODES

- **332510** - Hardware Manufacturing
- **332710** - Machine Shops
- **332322** - Sheet Metal Work Manufacturing
- **336330** - Motor Vehicle Steering and Suspension Components Manufacturing
- **336340** - Motor Vehicle Brake System Mfg.
- **336412** - Aircraft Engine and Engine Parts Manufacturing
- **339991** - Gasket, Packing, and Sealing Device Mfg.
- **336992** - Military Armored Vehicle, Tank, and Tank Component Manufacturing
- **336350** - Motor Vehicle Transmission and Powertrain Parts Mfg.
- **336390** - Other Motor Vehicle Parts Manufacturing
- **541330** - Engineering Services
- **541715** - Research and Development

QUALITY COMMITMENT

BCEP is committed to exceeding your expectations and ensuring your complete satisfaction. Our team of experienced engineers, staff, and management, work diligently with our government and commercial customers to ensure the quality of our products and services are unparalleled and all performance metrics are met.

We are ISO 9001:2015 Certified, #C0392431-IST7.

EXPERIENCE

Parts Supply

Numerous platforms for US DoD Agencies including the Air Force, Army, Marines, and Navy

- HEMTT
- FMTV
- MRAP
- MATV
- JLTV
- HMMWV
- Abrams
- ALCM
- ICBM
- B-2
- B-52
- F-15
- C/KC-135
- EC-135H/K/P
- E3A/B/C
- TF-33
- F-107
- UH-60
- CIWS
- and more

SBIR

Small Business Innovation and Research (SBIR) Programs supporting various US DoD Facilities

- Hill Air Force Base
- Tinker Air Force Base
- Robins Air Force Base
- US Army - TACOM
- US Navy - Cherry Point
- DLA Aviation

BCEP continually provides novel, innovative solutions from Phase 1 through commercialization in Phase 3 for improvement, sustainment, and DMSMS/obsolescence resolution.

Technical/SAR

BCEP submits an average of 50 Source Approval Requests (SARs) annually with an 83% first-pass approval rate.

- >200 part approvals earned
- >\$81 million DoD cost savings on top 25 parts
- 100% in-house technical data package development
- Extensive product testing capabilities
- In-house lab equipment for reverse engineering
- Reverse Engineering on-site at bases

DEDICATED TEAM

When you work with BCEP, you work with an agile team dedicated to completing all contractual objectives within the defined scope of work.

BCEP will assign one of our professional, experienced team members to oversee your project and provide regular feedback as required.

Our dedicated team is not satisfied until we have exceeded all your expectations.
